HOW-TO CREATE: EASTER BUNNY PINEAPPLES

STEP 1:

Start with pineapple bunny shape dipped in brown chocolate.

STEP 2:

Once dry, using pink chocolate in a piping bag, form the centers of the ears and fill in. At this time also add the nose.

STEP 3:

Using white chocolate in a piping bag, create eyes, whiskers and mouth.

STEP 4:

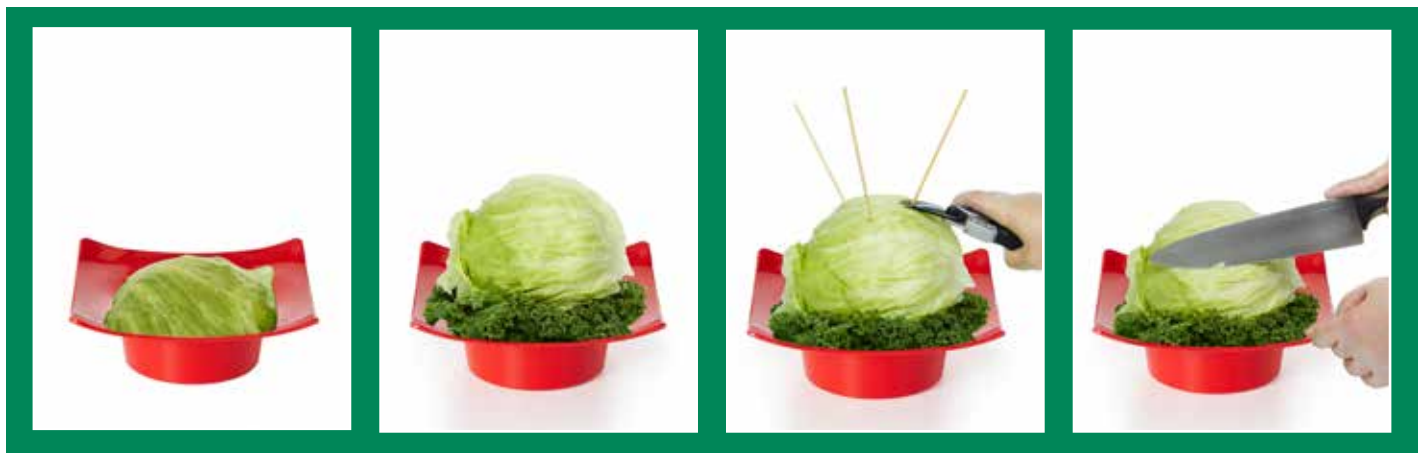

Once white chocolate is dry, dip the end of a skewer into melted brown chocolate to finish off the eyes.

STEP 5:

Your completed Easter Bunny Pineapples should now look like this.

HOW-TO CREATE: TIME FOR CAKE!™

**STEP 1:**

Cut about 1/4 of a head of lettuce and place into bottom of green tray. Cover with green kale.

STEP 2:

Place 1 whole lettuce head on top.

STEP 3:

Using 3 skewers, insert them into the lettuce on an angle to secure lettuce to base.

STEP 4:

Cut down the round sides of the lettuce to create a cylinder shape.

**STEP 5:**

Final cylinder shape.

STEP 6:

Place green kale around the lettuce, using the pineapple stars to hold it in place.

STEP 7:

Add green kale to the top of the cake and continue to insert skewered fruit.

STEP 8:

Continue to insert fruit to create the cake shape, stars around the sides, strawberries around the bottom, and honeydew around the top rim. You can then fill in the remainder of the cake with the grapes and other fruit.

DESIGN TIP:

For the flames on the candles, use the pineapple pieces left from the stars to cut out a flame shape.

HOW-TO VIDEO:

A HOW-TO video for the Time for Cake!™ arrangement is available on BloomLink®. Log into BloomLink and go to Utilities 7 Design Resource Guide. Refer to "FruitBouquets.com - How To's - Training Resource" for link to YouTube video.

HOW-TO CREATE: ICE CREAM CONE

STEP 1:

Start with a pineapple ice cream cone shape dipped in brown chocolate. Once dry, using brown chocolate in a piping bag, drizzle several criss cross lines onto the cone part of the shape.

STEP 2:

Using white chocolate, outline the ice cream portion of the shape.

STEP 3:

Fill in the outline with white chocolate (this does not have to be perfect as it will be covered with confetti sequins so you will not see imperfections in chocolate).

STEP 4:

Before white chocolate sets, sprinkle on Bright Confetti Sequins to cover. Lightly shake off any excess sequins.

STEP 5:

Your completed Ice Cream Cone should now look like this.

HOW-TO CREATE: CHOCOLATE HEART EYES

Two Ways to Create Chocolate Heart Eyes for the For My Sweetheart™ arrangement:

For My Sweetheart™
183204 S/SB/L/LB

1. USE A MOLD:

This 55 cavity mini heart-shaped silicone candy mold is available on Amazon. Fill each cavity about halfway (or ¼" deep) with compound. Let dry completely and carefully pop them out.

2. TRACE HEARTS ON PARCHMENT PAPER:

Print the below stencil and place it underneath a piece of parchment paper. Use compound in a piping bag to trace the hearts. Once completely dry, pop hearts off the paper.

HOW TO ADHERE:

Use a dab of melted compound as an adhesive to attach the hearts to the pineapple slices. Chocolate adheres best to surfaces that are smooth and dry. Save time by making these in advance! Store compound hearts in an airtight container between sheets of parchment paper until ready.

HOW-TO PACKAGE: ALL AROUND OR FORWARD FACING ARRANGEMENTS

STEP 1:

Place finished arrangement into cello bag.

STEP 2:

Close bag with purple/green ribbon and Fruit Bouquets by 1800Flowers.comSM Arrangement Hangtag. Be sure hangtag is tied to the ribbon. Make sure that the closure is airtight.

STEP 3:

Place purple and green tissue wrap in delivery box.

STEP 4:

Place arrangement into delivery box, ensuring that the bottom of the hardgood lays flat on the bottom of the delivery box and that the Fruit Bouquets by 1800Flowers.com[®] logo is facing front.

STEP 5:

Place Fruit Bouquets by 1800Flowers.comSM Sticker on the front of cello bag and cut bag down to size (if needed).

STEP 6:

Include gift message on the blank side of the gift card. If you are a BMS user, simply cut the gift message from the printed ticket and tape it on the card. Otherwise, write the gift message on the card using neat and legible handwriting.

STEP 7:

Insert gift card into envelope.

STEP 8:

Staple the envelope to the top of the cello near the green and purple ribbon.

When completing a delivery, only the branded gift card and hangtag supplied by Fruit Bouquets by 1-800-Flowers.com[®] should be attached to the package. Do not leave any other components of the BloomLink order printout or BMS ticket attached to the package at the time of delivery. If the delivery information portion of the printed ticket is attached to the package for fulfillment purposes, the delivery driver should be instructed to remove it prior to completing the delivery.

USE THESE TIPS TO CREATE YOUR FOOTBALL, BASEBALL, AND BASKETBALL STRAWBERRIES.

Football Stencil

Basketball Stencil

Baseball Stencil

Note: These steps are specifically for the Baseball strawberries. Please use the same technique for Football and Basketball strawberries.

STEP 1:

Dip strawberry in white chocolate. Let chocolate set before moving onto next step.

STEP 2:

Using red chocolate in a piping bag (or CK products Candy Writer pens) make 2 curved lines on either side of the strawberry. (It is not necessary to let chocolate set before moving onto next step but may make it easier.)

STEP 3:

Lastly, add "stitching" over your 2 curved lines.

HOW-TO CREATE: BUZZING BEES™ DIPPED STRAWBERRIES

PCs: 193206, 193208

STEP 1:

Dip berry in yellow chocolaty confection.

STEP 2:

Drizzle brown chocolaty confection on berry.

STEP 3:

Add candy eyes to the bottom of the berry. Or, purchase and use Wilton candy eyeballs referenced on Page 16.

STEP 4:

Create two teardrop shapes in a white chocolate confection by using a chocolate tear drop mold or by using the template provided. To find the template and mold information, go to BloomLink, Utilities, How To & FAQ section, and look for the file name: "How To - FB - Buzzing Bee Dipped Strawberries". It is recommended to prepare a quantity of wings ahead of time and store them in an airtight container with wax paper in between the layers.

STEP 5:

Attach the wings with white chocolate. Wings should lay flat on the berry so they fit in the box without breaking and set aside to dry. Your completed Buzzing Bees™ Dipped Strawberries should now look like this.

TIP: Purchase mold shown on right to make wings ahead of time. Store wings at room temperature in an airtight container until you are ready to use them.

QUALITY AND PERFORMANCE STANDARDS

To consistently meet and exceed customer expectations, 1-800-Flowers.com® maintains strict quality and performance standards in the fulfillment of its orders, including Fruit Bouquets by 1-800-Flowers.com™ and Shari's Berries® orders.

To receive orders for fulfillment, it is critical that you familiarize yourself with the key performance metrics below. BloomNet® Members can find their individual Monthly Performance Report under the "Utilities" tab on BloomLink®.

Below is a list of the key quality and performance metrics that 1-800-Flowers.com monitors for every fulfillment partner, along with helpful tips for keeping these metrics in line with expectations:

- **Number of orders with a reported Customer Service Issue (CSI)—less than 1.5%**

There are three specific categories of CSIs monitored:

- 1) Delivery Issues, which occur when a customer states that their delivery was not received or was not received on time.
- 2) Wrong Deliveries, which occur when a customer states that they received the wrong gift, that their gift is missing one or more components, or that their gift does not resemble what they ordered.
- 3) Quality Issues, which occur when a customer states that the quality (freshness, durability, and/or appearance) of the gift did not meet their expectations.

- **Real-Time Delivery Confirmations and Delivery Attempt Notifications—100% on the date of delivery**

Today's consumer expects real-time visibility into the status of their order. It is no longer enough to submit Delivery Notifications at the end of a driver's trip, because consumers expect to know about their delivery as soon as it is completed or attempted. When you provide accurate and timely Delivery Confirmations (DLCs) and/or Delivery Attempt Notifications (DLAs) immediately following the delivery of an order, we are better able to inform the customer about the status of their order. This helps us better manage customer expectations and provide a superior, well-informed level of customer service. As a result, the electronic submission of a Delivery Notification in real-time often results in reduced CSIs.

It is also important that you do not submit Delivery Notifications prior to completing or attempting to complete a delivery because Delivery Notifications trigger an immediate communication to the customer. Therefore, if you submit an inaccurate or premature Delivery Notification, you may risk causing confusion for the customer and prompting them to call with a CSI. Note, the purposeful submission of an inaccurate or premature Delivery Notification can be grounds for immediate and permanent suspension from receiving orders.

Visit the Utilities Section on BloomLink to learn more about the various tools available to your shop to support the submission of Delivery Notifications in real time, and please refer to our Delivery Expectations documentation for additional information.

- **Number of Rejected orders—0%**

1-800-Flowers.com has a no-reject policy for Fruit Bouquets by 1-800-Flowers.com and Shari's Berries orders. Fulfilling shops are expected to have adequate stock of all perishable and non-perishable components required to fulfill referred orders to recipe and to service all zip codes in their delivery profile until each day's cutoff time.

If your shop must reject an order due to unforeseen and extenuating circumstances, please be sure to call a member of the operations team in a timely manner so that we can attempt to address the issue with the customer before it is too late.

If your shop is not a florist and you receive a floral order in error, please be sure to reject the order immediately after receipt so that the order can be re-routed for fulfillment before it is too late. Under these specific circumstances, timely rejection of such orders will not affect your shop's fulfillment performance.

- **Number of orders fulfilled without a Price Change—100%**

Fulfilling shops are expected to fill every order to value, according to the product description, price, and recipe without requiring a Price Change. Payment amounts for all Fruit Bouquets by 1-800-Flowers.com and Shari's Berries products are designed to cover the fulfiller's delivery cost.

To help prevent service issues, please be sure to keep us informed of any problems with the fulfillment of an order by sending INFO Messages on the order via your BloomLink system. Any and all information you provide on a specific order will allow us to better service the customer and should help reduce the risk of CSIs and unnecessary order cancellations.

Note: Quality and Performance Standards are subject to change. Visit the Utilities Section on BloomLink for the most up-to-date version of the document.

DELIVERY EXPECTATIONS

At 1-800-Flowers.com, we're obsessed with providing a terrific customer experience. We take pride in reassuring our customers that their orders from Fruit Bouquets by 1-800-Flowers.com and Shari's Berries will arrive fresh, safely, and perfectly designed by our local shops, and that the delivery experience will exceed their expectations.

Today's consumers have higher expectations than ever before when they place an order for delivery. They expect that orders will be delivered on time and that they will be informed about the status of their order in a timely manner. As always, our goal is to meet and exceed evolving consumer expectations and support our 100% Smile Guarantee.

To that end, the following sections outline Delivery Expectations for the fulfillment of all Fruit Bouquets by 1-800-Flowers.com and Shari's Berries orders:

Product Care

To maintain optimal freshness, all components and finished products must be maintained in an appropriate temperature controlled environment at all times, including during delivery, and kept in compliance with all applicable national, federal, state and local food safety related laws.

Delivery Experience

Orders must always be delivered in clean and clearly identifiable delivery vehicles, and delivery drivers are always expected to exhibit professional, courteous behavior and presentation.

Delivery Times

All residential deliveries must be completed between 9:00 AM and 7:00 PM, and all non-residential deliveries must be completed between 9:00 AM and 5:00 PM.

Orders with a Delivery Time Window (DTW) must be delivered between the start time and end time of the specified delivery window.

Calling Ahead

Do not call the recipient ahead of attempting a delivery unless the notes on the order specifically state that it is okay to do so. Calling ahead may ruin the surprise for the recipient, result in a poor customer experience, and increase the number of customer complaints. On the other hand, if the customer has given permission to call ahead and the order notes state that it is okay to do so, then it is advisable that you call ahead to ensure that the recipient will be available at the time of delivery.

If an order is for delivery to a funeral home, then it is advisable to call the funeral home ahead of time in order to find out when and how the delivery should be made.

Completed Deliveries

Upon successful completion of a delivery, the fulfilling shop must always submit a Delivery Confirmation (DLC). Please note that the DLC will automatically trigger an electronic communication to the customer to inform them that the delivery has been made.

If the intended recipient is physically unavailable at the time of delivery, the fulfilling shop may leave the arrangement with another person (i.e. third-party delivery). Be sure to specify who took possession of the delivery when submitting a DLC.

Food products must always be left with a person. Food products cannot be left unattended (e.g. doorstep, porch, etc.).

Delivery Confirmations are an integral part of the fulfillment cycle. Successful fulfillment of an order is not complete until a Delivery Confirmation has been submitted.

Delivery Attempts

Whenever a delivery is attempted but cannot be completed, the fulfilling shop must always submit a Delivery Attempt Notification (DLA). Please note that the DLA will automatically trigger an electronic communication to the customer to inform them that the delivery was attempted but could not be completed. When submitting a DLA, be sure to provide as many details as possible, including the time of day when the delivery was attempted (e.g. rang bell but nobody answered).

If a delivery is attempted but cannot be successfully completed, leave a door tag at the recipient's location informing them that the delivery was attempted. If a door tag cannot be provided, call the recipient (if phone number is available) and leave a message to notify them that the delivery was attempted.

Real-Time Delivery Notifications

Delivery Notifications must be submitted in real-time, immediately following the successful or attempted delivery of all orders. Today's consumer expects real-time visibility into the status of their order. It is no longer enough to submit Delivery Confirmations (DLCs) and Delivery Attempt Notifications (DLAs) at the end of a driver's trip.

Submitting accurate and timely Delivery Notifications often results in reduced Customer Service Issues (CSIs) which, in turn, often results in reduced order cancellations with the fulfilling shop. Please be sure to provide as much detail as possible when submitting a Delivery Notification, such as who took possession of the delivery (e.g. intended recipient, front desk, receptionist, etc.).

Please note that BloomNet offers a variety of innovative technology tools to make it quick and easy to submit Delivery Notifications in real-time, including BloomNet's Enhanced Delivery Program.

Please visit <http://www.bloomnet.net/technology> and the Utilities Section on BloomLink to learn more about these tools.

In exceptional cases, when a Delivery Notification cannot be submitted in real-time, the following minimum thresholds must be adhered to:

- 100% of Residential deliveries without a specified Delivery Time Window must be electronically confirmed no later than 7:00 PM on the date of delivery.
- 100% of Business and Non-Residential deliveries without a specified Delivery Time Window must be electronically confirmed no later than 5:00 PM on the date of delivery.
- 100% of all deliveries with a specified Delivery Time Window must be delivered within the start and end time of the specified Delivery Time Window and electronically confirmed no later than 1 hour after the end of the specified Delivery Time Window on the date of delivery.

Important Reminder:

Do not submit Delivery Notifications prior to completing or attempting to complete a delivery, because Delivery Notifications trigger an immediate communication to the customer. Inaccurate or premature Delivery Notifications often result in costly CSIs and order cancellations with the fulfilling shop.

Proof of Delivery

Fulfilling shops are expected to obtain Proof of Delivery on all orders. Obtaining Proof of Delivery can safeguard shops from order cancellations and non-payment when a customer claims that an order was not delivered.

Fulfilling shops are expected to provide Proof of Delivery to 1-800-Flowers.com upon request and in response to a non-delivery complaint from a customer and/or an order cancellation dispute.

BloomNet shops using the BloomNet Business Management System's FREE Local Delivery Management App are required to proactively submit Proof of Delivery electronically on every order, thereby reducing the chances of an order cancellation dispute.

Proof of Delivery should be captured in the form of:

- A delivery signature from the recipient
- A delivery photo that captures the product and delivery location in the background

Collecting both forms of Proof of Delivery is preferable to collecting only one. However, please note that collecting delivery signatures is not feasible while "contactless deliveries" are in place, and only delivery photos should be obtained under this circumstance.

When capturing delivery photos, please refrain from attempting to capture the recipient in the photo, as some recipients may not feel comfortable being photographed without their explicit consent.

Note: Delivery Expectations are subject to change. Visit the Utilities Section on BloomLink for the most up-to-date version of the document.
