Introducing Our 2024 Fall, Holiday & Everyday Design Resource Guide for Fruit Bouquets® and Shari's Berries®

Our fresh introductions are designed to sweeten every celebration this time of year. These unique and original designs enrich our collection and create a delicious assortment of seasonal and everyday favorites!

FALL

Our new and returning offerings will get everyone excited about autumn. **Fruitful Harvest™** and **Flavors of Fall™** are back, filled with seasonally-shaped fruits, like pineapple pumpkins and leaves, along with festive sprinkles. Both are served up in our new Fall Scenes container, decorated with harvest favorites. **Our Perfectly Plated™ Fall Dipped Fruit Platter** is also making its return, now with a dipped and decorated pumpkin, for the perfect party pick. We are happy to welcome back **Fall Delight™** and **Gourmet Gobble™**, both featured in our red reusable mug. Also ready to make every Thanksgiving feast sweeter is the popular **It's Turkey Time™** in our exclusive orange tray.

We continue to offer our **Gourmet Fall Dipped Fancy Strawberries™**, **Gourmet Autumn Dipped Strawberries™** and **Happy Turkey Day Dipped Strawberries™** for the gift-giver who wants the classic **Shari's Berries®** look, but with the colorful and whimsical touches of the fall and Thanksgiving season.

HALLOWEEN

New for Halloween is our **Perfectly Plated™ Halloween Dipped Fruit Platter**, complete with dipped and undipped treats, along with a spooky sweet jack-o'-lantern pineapple for the ultimate crowd pleaser. Our best-selling **Trick or Treat Sweets™** is making a return, arriving inside our exclusive Trick or Treat bucket, decorated with skulls and bats. Also back is our **Frightful Fun Fruit™** arrangement, in our orange tray for a spooky way to share. Just as fun are our **Gourmet Dipped Halloween Strawberries™**, covered in chocolaty confection and decorated with jack-o'-lantern faces, purple drizzle, and covered in Halloween fusion sprinkle mix.

HOLIDAY

It's the most wonderful time of the year for giving...and we've got a lot to share! New this season are our **Perfectly Plated™ Dipped Fruit Platter for Hanukkah**, featuring our blue, white & gold sprinkle mix, and our **Perfectly Plated™ Cheers to the New Year Fruit Platter**, a fun party treat for ringing in 2025. For Christmas, we welcome our **Holiday Gingerbread Mug™**, with an adorable dipped gingerbread man in our red reusable mug. Making their return are our customer favorites, **Welcome Christmas™** and **Christmas Cheer™**, with updated recipes but just as delicious. Also revised is our **Perfectly Plated™ Holiday Dipped Fruit Platter**, now with a dipped gingerbread man on top. Last but not least is our **Scenes of Winter Fruit Arrangement™**, with an updated recipe that includes dipped garland-decorated trees and a dipped gingerbread man.

We're happy to offer our new **Chocolate Covered Strawberries for Hanukkah™**, dipped and sprinkled with a holiday mix. Many of our popular holiday favorites are back as well, like our **Holiday Cheer™ Dipped Strawberries™**, **Santa's Reindeer™ Dipped Strawberries**, and **Frosty Fun™ Dipped Strawberries**, all adding fun and festive seasonal flavor.

EVERYDAY

We're there for all of life's moments, and continue to add to our shareable fruit platter collection. New arrangements include **Perfectly Plated™ Touchdown Dipped Fruit Platter**, with dipped strawberry footballs for a winning game day get-together. We also have our **Perfectly Plated™ Dipped Fruit Platter for Sympathy**, featuring a dipped white butterfly to add your heartfelt condolences when they need it most. Making their return are our **Perfectly Plated™ Birthday Dipped Fruit Platter** and **Perfectly Plated™ Dipped Fruit Platter**, so you can make every celebration sweeter, even if it's just because.

We hope you're as excited as we are about the delicious and eye-catching additions to our **Fruit Bouquets®** and **Shari's Berries®** assortments. Your support inspires the creation of exclusive and original products that delight gift-givers and boost revenue in your retail locations. We thank you for your dedication and wish you a happy, healthy and successful holiday season.

"Fruit is nature's candy."

HOW-TO CREATE: PINEAPPLE PUMPKIN

STEP 1:

Dip pineapple pumpkin in brown chocolate coating. Stick the pumpkin in a foam board for drying.

STEP 2:

Using orange chocolate coating in a piping bag, outline the edge of the pumpkin.

STEP 3:

Create curved lines from top to bottom of pumpkin (or bottom to top).

STEP 4:

Using green chocolate coating in piping bag, add the stem of the pumpkin to complete. Let chocolate dry and add into arrangement.

HOW-TO CREATE: TURKEY FACE

STEP 1:

Use daisy cutter to cut pineapple.

STEP 2:

Cut bottom two petals off.

STEP 3:

Dip in milk chocolate confection and allow to dry.

STEP 4:

Add eyes and beak to the face. Keep as low as possible to leave room for the feather.

STEP 5:

To create feathers, create three vertical lines in the center top petal of red, orange, and yellow chocolaty confection.

STEP 6:

While still warm, use a skewer to blend the orange out to the red and yellow side creating a feather-like design.

STEP 7:

Your completed Turkey Face should now look like this.

HOW-TO CREATE: PINEAPPLE SKULL

STEP 1:

Cut pineapple into 3/4" slices and use 3" skull cookie cutter to create shape. Skewer and dry thoroughly.

STEP 2:

Dip pineapple in white chocolate compound and gently tap or shake off excess chocolate. Let dry.

ADD DETAILS

STEP 3:

Use chocolate compound in a piping bag to create the skull's face.*

STEP 4:

Draw 2 diagonal lines for the nose. Next, draw a horizontal line for the mouth.

STEP 5:

Lastly, add shorter vertical lines to complete mouth.

*If you have round milk chocolate compound wafers, you can use these to create the eyes.

HOW-TO CREATE: CHRISTMAS TREE TREAT™

STEP 1:

Stack the 2 heads of lettuce in the container. Secure together using 3-4 skewers inserted on an angle.

STEP 2:

Using your large knife, cut down the lettuce so it is flush with the sides of the container.

STEP 3:

Insert kale leaves around the lettuce.

STEP 4:

Insert remaining kale leaves on the top of the arrangement to add height and create your tree shape.

STEP 5:

Insert pineapple star "tree topper."

STEP 6:

Begin to insert all of your fruit pieces to create a tree shape until all fruit is inserted. Tip: Start with the melon pieces, as these will help you create the tree shape best.

HOW-TO CREATE: TIME FOR CAKE!™

STEP 1:

Cut about 1/4 of a head of lettuce and place into bottom of green tray. Cover with green kale.

STEP 2:

Place 1 whole lettuce head on top.

STEP 3:

Using 3 skewers, insert them into the lettuce on an angle to secure lettuce to base.

STEP 4:

Cut down the round sides of the lettuce to create a cylinder shape.

STEP 5:

Final cylinder shape.

STEP 6:

Place green kale around the lettuce, using the pineapple stars to hold it in place.

STEP 7:

Add green kale to the top of the cake and continue to insert skewered fruit.

STEP 8:

Continue to insert fruit to create the cake shape, stars around the sides, strawberries around the bottom, and honeydew around the top rim. You can then fill in the remainder of the cake with the grapes and other fruit.

DESIGN TIP:

For the flames on the candles, use the pineapple pieces left from the stars to cut out a flame shape.

HOW-TO VIDEO:

A HOW-TO video for the Time for Cake!™ arrangement is available on BloomLink®. Log into BloomLink and go to Utilities > HowTo's & FAQs. Refer to "How To - FB-SB How To Videos" for link to YouTube video.

HOW-TO CREATE: ICE CREAM CONE

STEP 1:

Start with a pineapple ice cream cone shape dipped in brown chocolate. Once dry, using brown chocolate in a piping bag, drizzle several criss cross lines onto the cone part of the shape.

STEP 2:

Using white chocolate, outline the ice cream portion of the shape.

STEP 3:

Fill in the outline with white chocolate (this does not have to be perfect as it will be covered with confetti sequins so you will not see imperfections in chocolate).

STEP 4:

Before white chocolate sets, sprinkle on bright confetti sequins mix to cover. Lightly shake off any excess sequins.

STEP 5:

Your completed Ice Cream Cone should now look like this.

HOW-TO CREATE: CHOCOLATE HEART EYES

Two Ways to Create Chocolate Heart Eyes for the For My Sweetheart™ arrangement:

For My Sweetheart™
183204 S/SB/L/LB

1. USE A MOLD:

This 55 cavity mini heart-shaped silicone candy mold is available on Amazon. Fill each cavity about halfway (or ¼" deep) with compound. Let dry completely and carefully pop them out.

2. TRACE HEARTS ON PARCHMENT PAPER:

Print the below stencil and place it underneath a piece of parchment paper. Use compound in a piping bag to trace the hearts. Once completely dry, pop hearts off the paper.

HOW TO ADHERE:

Use a dab of melted compound as an adhesive to attach the hearts to the pineapple slices. Chocolate adheres best to surfaces that are smooth and dry. Save time by making these in advance! Store compound hearts in an airtight container between sheets of parchment paper until ready.

QUALITY AND PERFORMANCE STANDARDS

To consistently meet and exceed customer expectations, 1-800-Flowers.com® maintains strict quality and performance standards in the fulfillment of its orders, including Fruit Bouquets by 1-800-Flowers.com™ and Shari's Berries® orders.

To receive orders for fulfillment, it is critical that you familiarize yourself with the key performance metrics below. BloomNet® Members can find their individual Monthly Performance Report under the “Utilities” tab on BloomLink®.

Below is a list of the key quality and performance metrics that 1-800-Flowers.com monitors for every fulfillment partner, along with helpful tips for keeping these metrics in line with expectations:

- **Number of orders with a reported Customer Service Issue (CSI)—less than 1.5%**

There are three specific categories of CSIs monitored:

- 1) Delivery Issues, which occur when a customer states that their delivery was not received or was not received on time.
- 2) Wrong Deliveries, which occur when a customer states that they received the wrong gift, that their gift is missing one or more components, or that their gift does not resemble what they ordered.
- 3) Quality Issues, which occur when a customer states that the quality (freshness, durability, and/or appearance) of the gift did not meet their expectations.

- **Real-Time Delivery Confirmations and Delivery Attempt Notifications—100% on the date of delivery**

Today's consumer expects real-time visibility into the status of their order. It is no longer enough to submit Delivery Notifications at the end of a driver's trip, because consumers expect to know about their delivery as soon as it is completed or attempted. When you provide accurate and timely Delivery Confirmations (DLCs) and/or Delivery Attempt Notifications (DLAs) immediately following the delivery of an order, we are better able to inform the customer about the status of their order. This helps us better manage customer expectations and provide a superior, well-informed level of customer service. As a result, the electronic submission of a Delivery Notification in real-time often results in reduced CSIs.

It is also important that you do not submit Delivery Notifications prior to completing or attempting to complete a delivery because Delivery Notifications trigger an immediate communication to the customer. Therefore, if you submit an inaccurate or premature Delivery Notification, you may risk causing confusion for the customer and prompting them to call with a CSI. Note, the purposeful submission of an inaccurate or premature Delivery Notification can be grounds for immediate and permanent suspension from receiving orders.

Visit the Utilities Section on BloomLink to learn more about the various tools available to your shop to support the submission of Delivery Notifications in real time, and please refer to our Delivery Expectations documentation for additional information.

- **Number of Rejected orders—0%**

1-800-Flowers.com has a no-reject policy for Fruit Bouquets by 1-800-Flowers.com and Shari's Berries orders. Fulfilling shops are expected to have adequate stock of all perishable and non-perishable components required to fulfill referred orders to recipe and to service all zip codes in their delivery profile until each day's cutoff time.

If your shop must reject an order due to unforeseen and extenuating circumstances, please be sure to call a member of the operations team in a timely manner so that we can attempt to address the issue with the customer before it is too late.

If your shop is not a florist and you receive a floral order in error, please be sure to reject the order immediately after receipt so that the order can be re-routed for fulfillment before it is too late. Under these specific circumstances, timely rejection of such orders will not affect your shop's fulfillment performance.

- **Number of orders fulfilled without a Price Change—100%**

Fulfilling shops are expected to fill every order to value, according to the product description, price, and recipe without requiring a Price Change. Payment amounts for all Fruit Bouquets by 1-800-Flowers.com and Shari's Berries products are designed to cover the fulfiller's delivery cost.

To help prevent service issues, please be sure to keep us informed of any problems with the fulfillment of an order by sending INFO Messages on the order via your BloomLink system. Any and all information you provide on a specific order will allow us to better service the customer and should help reduce the risk of CSIs and unnecessary order cancellations.

Note: Quality and Performance Standards are subject to change. Visit the Utilities Section on BloomLink for the most up-to-date version of the document.

DELIVERY EXPECTATIONS

At 1-800-Flowers.com, we're obsessed with providing a terrific customer experience. We take pride in reassuring our customers that their orders from Fruit Bouquets by 1-800-Flowers.com and Shari's Berries will arrive fresh, safely, and perfectly designed by our local shops, and that the delivery experience will exceed their expectations.

Today's consumers have higher expectations than ever before when they place an order for delivery. They expect that orders will be delivered on time and that they will be informed about the status of their order in a timely manner. As always, our goal is to meet and exceed evolving consumer expectations and support our 100% Smile Guarantee.

To that end, the following sections outline Delivery Expectations for the fulfillment of all Fruit Bouquets by 1-800-Flowers.com and Shari's Berries orders:

Product Care

All fresh-cut produce is perishable and should be handled appropriately at every stage of fulfillment, including delivery. To ensure that the quality, safety, and shelf-life of the product are not compromised, you must always maintain products refrigerated and protected from external elements, including while in transit for delivery.

- Keep fresh-cut produce at or below a temperature of 41 degrees Fahrenheit when stored, displayed, and in transit, in order to reduce the risk of microbial pathogen growth.
- Keep all finished products and raw perishable components away from direct sunlight or exposure to heat or extreme cold.
- Seal all finished products inside a cello or poly food safe package and transport in a clean, sanitary container dedicated to carrying food products.

Delivery Experience

Orders must always be delivered in clean and clearly identifiable delivery vehicles, and delivery drivers are always expected to exhibit professional, courteous behavior and presentation.

Delivery Times

All residential deliveries must be completed between 9:00 AM and 7:00 PM, and all non-residential deliveries must be completed between 9:00 AM and 5:00 PM.

Orders with a Delivery Time Window (DTW) must be delivered between the start time and end time of the specified delivery window.

Calling Ahead

Do not call the recipient ahead of attempting a delivery unless the notes on the order specifically state that it is okay to do so. Calling ahead may ruin the surprise for the recipient, result in a poor customer experience, and increase the number of customer complaints. On the other hand, if the customer has given permission to call ahead and the order notes state that it is okay to do so, then it is advisable that you call ahead to ensure that the recipient will be available at the time of delivery.

If an order is for delivery to a funeral home, then it is advisable to call the funeral home ahead of time in order to find out when and how the delivery should be made.

Completed Deliveries

Upon successful completion of a delivery, the fulfilling shop must always submit a Delivery Confirmation (DLC). Please note that the DLC will automatically trigger an electronic communication to the customer to inform them that the delivery has been made.

If the intended recipient is physically unavailable at the time of delivery, the fulfilling shop may leave the arrangement with another person (i.e. third-party delivery). Be sure to specify who took possession of the delivery when submitting a DLC.

Food products must always be left with a person. Food products cannot be left unattended (e.g. doorstep, porch, etc.).

Delivery Confirmations are an integral part of the fulfillment cycle. Successful fulfillment of an order is not complete until a Delivery Confirmation has been submitted.

Delivery Attempts

Whenever a delivery is attempted but cannot be completed, the fulfilling shop must always submit a Delivery Attempt Notification (DLA). Please note that the DLA will automatically trigger an electronic communication to the customer to

inform them that the delivery was attempted but could not be completed. When submitting a DLA, be sure to provide as many details as possible, including the time of day when the delivery was attempted (e.g. rang bell but nobody answered).

If a delivery is attempted but cannot be successfully completed, leave a door tag at the recipient's location informing them that the delivery was attempted. If a door tag cannot be provided, call the recipient (if phone number is available) and leave a message to notify them that the delivery was attempted.

Real-Time Delivery Notifications

Delivery Notifications must be submitted in real-time, immediately following the successful or attempted delivery of all orders. Today's consumer expects real-time visibility into the status of their order. It is no longer enough to submit Delivery Confirmations (DLCs) and Delivery Attempt Notifications (DLAs) at the end of a driver's trip.

Submitting accurate and timely Delivery Notifications often results in reduced Customer Service Issues (CSIs) which, in turn, often results in reduced order cancellations with the fulfilling shop. Please be sure to provide as much detail as possible when submitting a Delivery Notification, such as who took possession of the delivery (e.g. intended recipient, front desk, receptionist, etc.).

Please note that BloomNet offers a variety of innovative technology tools to make it quick and easy to submit Delivery Notifications in real-time, including BloomNet's Enhanced Delivery Program.

Please visit <http://www.bloomnet.net/technology> and the Utilities Section on BloomLink to learn more about these tools.

In exception cases, when a Delivery Notification cannot be submitted in real-time, the following minimum thresholds must be adhered to:

- 100% of Residential deliveries without a specified Delivery Time Window must be electronically confirmed no later than 7:00 PM on the date of delivery.
- 100% of Business and Non-Residential deliveries without a specified Delivery Time Window must be electronically confirmed no later than 5:00 PM on the date of delivery.
- 100% of all deliveries with a specified Delivery Time Window must be delivered within the start and end time of the specified Delivery Time Window and electronically confirmed no later than 1 hour after the end of the specified Delivery Time Window on the date of delivery.

Important Reminder:

Do not submit Delivery Notifications prior to completing or attempting to complete a delivery, because Delivery Notifications trigger an immediate communication to the customer. Inaccurate or premature Delivery Notifications often result in costly CSIs and order cancellations with the fulfilling shop.

Proof of Delivery

Fulfilling shops are expected to obtain Proof of Delivery on all orders. Obtaining Proof of Delivery can safeguard shops from order cancellations and non-payment when a customer claims that an order was not delivered.

Fulfilling shops are expected to provide Proof of Delivery to 1-800-Flowers.com upon request and in response to a non-delivery complaint from a customer and/or an order cancellation dispute.

BloomNet shops using the BloomNet Business Management System's FREE Local Delivery Management App are required to proactively submit Proof of Delivery electronically on every order, thereby reducing the chances of an order cancellation dispute.

Proof of Delivery should be captured in the form of:

- A delivery signature from the recipient
- A delivery photo that captures the product and delivery location in the background

Collecting both forms of Proof of Delivery is preferable to collecting only one. However, please note that collecting delivery signatures is not feasible while "contactless deliveries" are in place, and only delivery photos should be obtained under this circumstance.

When capturing delivery photos, please refrain from attempting to capture the recipient in the photo, as some recipients may not feel comfortable being photographed without their explicit consent.

Note: Delivery Expectations are subject to change. Visit the Utilities Section on BloomLink for the most up-to-date version of the document.
