Requirements: Refrigeration space separate from food products. Food license.

SUCCESS STORIES

Working with the Fruit and Shari's team delivering frozen confections has been an absolute delight! The pairing of a frozen confection delivery with a flower arrangement has boosted our order volume. **Offering customers the choice of both treats and blooms adds an extra layer of delight to their experience.** I highly recommend pairing with 1-800-Flowers.com for a winning combination of taste and presentation.

Margaret Fleegal President & CEO, Twinbrookfloraldesign.com

As a 1-800-Flowers.com franchisee for several years, many of our locations pair with Fruit Bouquets and Shari's Berries. All the necessary supplies and merchandise are easily accessible through the Fruit Bouquets team. **We have seen significant volume for combo orders with frozen confections and the floral component.** Customers like to have fresh arrangements and the ability to add treats to their gifts. We are happy with our partnership.
